Shvets Natalia Vyacheslavivna, Ph. D. (Economics), associate professor of department of economy of enterprise. **Braslavskaya Elena Victorivna**, senior teacher of department of economy of enterprise. Technological institute of the East-Ukrainian national university by the name of V. Dal (Severodonetsk). **Transformation reorganizations of production infrastructure on the main chemical enterprise of Ukraine.** On the example of enterprises of chemical industry tasks, functions and organizational features of functioning of basic subdivisions of production infrastructure, are considered. Activity of auxiliary productions is analysed in modern terms and the tendencies of their internal structural changes are certain because of diminishing of resource potential and volumes of works.

Keywords: production infrastructure, auxiliary production, organization, chemical enterprise.
