

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 3/2(47), 2019

CONTENTS

INFORMATION TECHNOLOGIES

- 4** Data mining of sustainable development process with using nightlight indicators
Putrenko V., Pashynska N.
- 9** Development of a combined image recognition model
Voloshyn M.
- 15** Development of classification model based on neural networks for the process of iron ore beneficiation
Senko A., Kupin A., Mysko B.

MATHEMATICAL MODELING

- 20** Search for impact factor characteristics in construction of linear regression models
Geche F., Mulesa O., Hrynenko V., Smolanka V.

SYSTEMS AND CONTROL PROCESSES

- 26** Development of mathematical model of localization of a small explosive object with the help of a specialized protective device
Stetsiuk Y.
- 31** Analysis of foreign experience of implementation of the dual form of education and accessibility of its implementation in Ukraine
Lechachenko T.

REPORTS ON RESEARCH PROJECTS

- 39** Elaboration of the hierarchical approach to segmentation of scanned documents images
Ishchenko A., Zhuchkovskiy V.
- 43** Development of an ontological model for the domain of IT enterprise sustainable development
Popershenyak S., Grinenko S.
- 46** Abstracts and References
