

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 2/3(52), 2020

CONTENTS

ECOLOGY AND ENVIRONMENTAL TECHNOLOGY

- 4** Microbiological assessment of drinking water quality at different stages of water treatment
Bordiug N., Rashchenko A., Feshchenko O., Sargan P.
- 9** Substantiation of environmental and resource-saving technologies for void filling under underground ore mining
Lyashenko V., Khomenko O., Golik V., Topolnij F., Helevera O.
- 17** Development of priority measures (solutions) for the environmentally safe management of municipal waste at the community level
Honcharenko I., Anishchenko L., Pisia L.

REPORTS ON RESEARCH PROJECTS

- 26** Evaluation of gas evolution outside the extraction section at the activation of coal-bearing stratum displacement
Filatieva E., Oleinichenko A., Filatiev M.
- 31** Modeling of technological parameters of filament joints of clothing parts for professional sports fencing
Kharchenko J., Bilotska L.
- 35** Research of the influence of soybean germination on changes in the amino acid composition and the content of phytic acid
Biletska Y., Semeniuk A., Perepelytsia A.
- 38** Development of a method for producing fruit berry paste and equipment for its implementation
Kasabova K., Zagorulko A., Zahorulko A.
- 41** Comparative characteristics of technological properties of four-species triticale grain comparative to classic triticale and common wheat grain
Liubych V., Novikov V., Zheliezna V., Prykhodko V., Petrenko V., Khomenko S., Zorunko V., Balabak O., Moskalets V., Moskalets T.
- 46** Abstracts and References
