 mathematics

Contents

Volume 13. Number 1. 2012

Algebra and discrete mathematics.

H. Albuquerque, F. Panaite	■ Some (Hopf) algebraic properties of circulant matrices	1
Kh. A. Al-Sharo, O. Shemetkova, Xiaolan Yi	■ On S -quasinormally embedded subgroups of finite groups	18
T. Banakh, V. Gavrylkiv	■ Algebra in superextensions of semilattices	26
I. Dudchenko, M. Plakhotnyk	■ A linear algorithm of checking of the graph connectness	43
M. Ghasemi	■ Automorphism groups of tetravalent Cayley graphs on minimal non-abelian groups	52
V. V. Kirichenko, L. A. Kurdachenko, J. Otal, I. Ya. Subbotin	■ On the contribution of D.I. Zaitsev to the Theory of Infinite Groups	59
L. A. Kurdachenko, K. O. Grin, N. A. Turbay	■ On hypercentral fuzzy groups	92
I. Protasov	■ Partitions of groups into sparse subsets	107
I. Yu. Raievska, Ya. P. Sysak	■ Finite local nearrings on metacyclic Miller-Moreno p -groups	111
A.P. Santhakumaran, S. Athisayanathan	■ The upper edge-to-vertex detour number of a graph	128

Algebra and discrete mathematics

Volume 13. Number 1. (Jan./Mar. 2012)

Was founded in 2002. It is issued four times a year.

Founder

Lugansk Taras Shevchenko
National University

Publishers

Kyiv Taras Shevchenko
National University

Institute of Applied Mathematics
and Mechanics of the
National Academy
of Sciences of Ukraine

Lugansk Taras Shevchenko
National University

**Registered by the State
Committee of information policy,
broadcasting activities of Ukraine**

**Registration Certificate KB
№ 5885 dated 21.02.2002.**

The papers published in Algebra and Discrete Mathematics are reviewed
in *Mathematical Reviews* and *Zentralblatt für Mathematik*

Chief Editors:

Drozd Yu.A.

The aim of the journal “**Algebra and Discrete Mathematics**” (as *ADM* below) is to present timely the state-of-the-art accounts on modern research in all areas of algebra (general algebra, semigroups, groups, rings and modules, linear algebra, algebraic geometry, universal algebras, homological algebra etc.) and discrete mathematics (combinatorial analysis, graphs theory, mathematical logic, theory of automata, coding theory, cryptography etc.)

Languages:

Papers to be considered for publication in the *ADM* journal must be written in English.

Preparing papers:

Papers submitted to the *ADM* journal should be prepared in \LaTeX . Authors are strongly encouraged to prepare their papers using the *ADM* author package containing template, instructions, and *ADM* journal document class. *ADM* author package is available from the journal web-site <http://adm.luguniv.edu.ua>.

Graphical items should be prepared as eps (encapsulated PostScript) files and included by using the `graphicx` package. To avoid distortion from rescaling, figures must not be wider than 120 mm.

Submitting papers:

Authors who wish to submit their papers should send paper in PDF format directly to anyone of the Editors via electronic mail.

E-mails of the Editors are listed on the Editorial Board page.

The source \TeX -file of the paper will be needed if it accepted for publication.

Submission of a manuscript implies that the work described has not been published before and that it is not under consideration for publication elsewhere.

Required information:

The following information is required with the submission (note that all contact information, particularly email addresses, must be supplied to avoid delay):

1. *full postal address of each author;*
2. *e-mail of each author;*
3. *abstract (no more than 15 lines);*
4. *2010 Mathematics subject classification*
(can be accessible from <http://www.ams.org/msc>);
5. *key words and phrases.*

Proof-sheets:

Authors receive only one set of proof-sheets in PDF format via e-mail for corrections. Only correction of misprints and minor changes can be made during proofreading.
