A

Instructions for authors

B

To the 100th anniversary of the birth
of SERGEI NIKOLAEVICH CHERNIKOV

C

* * *

A. Ballester-Bolinches, J. C. Beidleman, A. D. Feldman, H. Heineken, M. F. Ragland	<i>S</i> -Embedded subgroups in finite groups	139
T. Banakh, V. Gavrylkiv	Algebra in superextensions of inverse semigroups	147
M. R. Dixon, V. V. Kirichenko, L. A. Kurdachenko, J. Otal, N. N. Semko, L. A. Shemetkov, I. Ya. Subbotin	S. N. Chernikov and the development of infinite group theory	169
Yu. A. Drozd, R. V. Skuratovskii	One branch curve singularities with at most 2-parameter families of ideals	209
A. M. Gaglione, S. Lipschutz, D. Spellman	Survey of generalized pregroups and a question of Reinhold Baer	220
R. I. Grigorchuk, Ya. S. Krylyuk	The spectral measure of the Markov operator related to 3-generated 2-group of intermediate growth and its Jacobi parameters	237
A. I. Kashu	On inverse operations in the lattices of submodules	273
V. Selkin	On factorizations of limited solubly ω -saturated formations	289
L. N. Shevrin	Semigroups with certain finiteness conditions and Chernikov groups	299
