

CONTENTS

Editorial board		A
Instructions for authors		B
Rostislav I. Grigorchuk. To the 60th anniversary		C
* * *		
J. Howie	Generalised triangle groups of type $(3, q, 2)$	1
M. Kasyanuk	On one class of semiperfect semidistributive rings	19
L. A. Kurdachenko, K. O. Grin, N. A. Turbay	On normalizers in fuzzy groups	23
C. J. Maxson	Function algebras on rectangular bands	37
B. Oliynyk	Infinitely iterated wreath products of metric spaces	48
H. Pinedo	On elementary domains of partial projective representations of groups	63
E. Płonka	Associative words in the symmetric group of degree three	83
I. Shestakov, A. Tsurkov	Automorphic equivalence of the representations of Lie algebras	96
R. Wisbauer	Regular pairings of functors and weak (co)monads	127
