Algebra and discrete mathematics

Contents

J. C. Beidleman	■ A survey article on some subgroup embeddings and local properties for soluble PST-groups	197
P. Daugulis	■ Nonuniqueness of semidirect decompositions for semidirect products with directly decomposable factors and applications for dihedral groups	204
M. Dudenko, B. Oliynyk	■ On unicyclic graphs of metric dimension 2	216
G. Ercan, İ. Ş. Güloğlu	■ Finite groups admitting a dihedral group of automorphisms	223
M. Fedorova, A. Oliynyk	■ Finite automaton actions of free products of groups	230
G. U. Garba, A. T. Imam	■ Generators and ranks in finite partial transformation semigroups	237
J. H. Jo, J. B. Lee, S. R. Lee	■ The R_∞ property for Houghton's groups	249
M. Nikitchenko, S. Shkilniak	■ Algebras and logics of partial quasiary predicates	263
I. Protasov, K. Protasova	■ On recurrence in G -spaces	279
I. Samoilovych	■ Profinite closures of the iterated monodromy groups associated with quadratic polynomials	285
D. A. Sinitsa	■ A note on Hall S -permutably embedded subgroups of finite groups	305
I. Sokhor	■ On groups with biprimary subgroups of even order	312
V. Ustimenko	■ On new multivariate cryptosystems with nonlinearity gap	331
