

CONTENTS

Surveys

KIBIREV V. K., OSADCHUK T. V. Structure and properties of proprotein convertase inhibitors	5
---	---

Experimental Works

GUDZENKO O. V., BORZOVA N. V., VARBANETS L. D. Influence of metal ions and specific chemical reagents on activity of α -L-rhamnosidase of <i>Eupenicillium erubescens</i>	30
--	----

MARCHENKO M. M., KOPYLCHUK G. P., SHMARAKOV I. O., BUCHKOVSKA I. M. Activity of enzymatic detoxification systems in the mice liver under conditions of different retinoid provision	42
--	----

GREBINYK S. M., GRYNYUK I. I., PRYLUTSKA S. V., MATYSHEVSKA O. P. Generation of active oxygen forms in rat tymocytes under action of hydrogen peroxide and fullerene C ₆₀	48
--	----

HUSEYNOV T. M., YAHYAYEVA F. R., GULIYEVA R. T. The effect of selenium haemoglobin an resistant for photooxidative processes	53
---	----

MOSUNOV A. A., KOSTJUKOV V. V., EVSTIGNEEV M. P. Studies by means of ¹ H NMR spectroscopy of complex formation of aromatic biologically active compounds with antibiotic topotecan	61
---	----

RIASNIY V. M., APUKHOVSKA L. I., VELIKY N. N., SHYMANSKYI I. O., LABUDZYNSKYI D. O., KOMISARENKO S. V. Immunomodulatory effects of vitamin D ₃ and bisphosphonates in nutritional osteoporosis in rats	73
---	----

KUCHMEROVSKA T. M., DONCHENKO G. V., TYCHONENKO T. M., GUZYK M. M., STAVNIICHUK R. V., YANITSKA L. V., STEPANENKO S. P., KLIMENKO A. P. Nicotinamide influence on pancreatic cells viability	81
--	----

Brief Notes

KALYNSKA L. M., KOSIAKOVA G. V., GULA N. M. Effect of N-stearoylethanolamine(NSE) on activity of angiotensine-converting enzyme in the brain structures and blood plasma of rats with streptozotocine-induced diabetes	89
--	----

Mathematical Modeling of Biochemical Processes

KARAKHIM S. O.

On true and apparent Michaelis constants in enzymology.

II. Is the equation $K_m^{app} = K_s + k_{cat}/k_I$ true for enzyme-catalysed reactions with activator participation? 93

BOBROVNIK S. A.

Analysis of titration curves of serum antibodies obtained by ELISA 105

The History of Biochemistry

DANILOVA V. M., VYNOGRADOVA R. P., KOMISARENKO S. V.

Laureates of Palladin Prize of the National Academy of Sciences of Ukraine.

Maksym Fedotovych Guly 111

Review

LEVITSKY E. L.

Review of the monograph by M. M. Marchenko, O. V. Ketsa, N. N. Veliky

Biochemical Transformation of Xenobiotics in the Organism 119
