Abbreviation key title

MHGCP

Target audience

Scientists/researchers (medical, social, educational fields and etc.), mental health (MH) practitioners, policy-makers, researchers, lawyers.

Major objectives

- to attract attention of researchers and policy-makers to urgent problems of mental health care (MHC)
- to provide a platform for dissemination of ideas and development of academic and non-academic network of MHC researchers, practitioners and policy-makers
- to promote high quality research most specifically on MH in developing countries and countries in transition
- to investigate multi-disciplinary, transdisciplinary and multicultural aspects and solutions related to MHC

Field of study and special focus

Medicine, Social Sciences, Education, Economics, Law, Inter- and Transdisciplinary studies

Topics

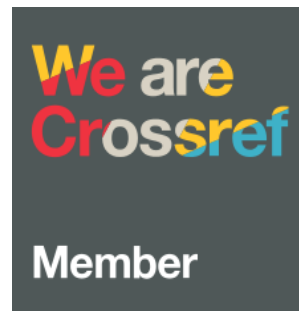

- MHC systems in the context of global social challenges:
- Mental health and migration:
- Mental health in times of military conflicts
- Mental health and community
- Specific issues of MHC: child neuropsychiatry; support for people with disabilities, work with elders related to mental health; MHC in rural areas; addictive behavior
- Higher Education and MHC: Research and Innovations:
