

Contents

385-395

Preparation and study of the porous Si surfaces obtained by electrochemical method

V.G. Lytovchenko, T.I. Gorbanyuk, V.P. Kladko, A.V. Sarikov, N.V. Safriuk, L.L.Fedorenko, S. Asmontas, J. Gradauskas, E. Sirmulis, O. Zalys

396-405

Tin-induced crystallization of amorphous silicon assisted by a pulsed laser irradiation

V.B. Neimash, V.V. Melnyk, L.L. Fedorenko, P.Ye. Shepeliavyi, V.V. Strelchuk, A.S. Nikolayenko, M.V. Isaiev, A.G. Kuzmich

406-417

Dynamics of transfer of electron excitation in a donor-acceptor system with a carbon chain and ways of its relaxation

M.M. Sevryukova, Yu.P. Piryatinski

418-423

Macroscopic versus microscopic photovoltaic response of heterojunctions based on mechanochemically prepared nanopowders of kesterite and n-type semiconductors

O.P.Dimitriev, D.O.Grynko, A.M.Fedoryak, T.P.Doroshenko, M. Kratzer, C. Teichert, Yu.V.Noskov, N.A.Ogurtsov, A.A.Pud, P. Balaz, M.Balaz, M.Tesinsky

424-429

Wave equation solution for multilayer planar waveguides in a spatial frequency domain

V.M. Fitio, A.V. Bendzyak, I.Y. Yaremchuk, Y.V. Bobitski

430-436

Asymptotic dependence of Gross–Tulub polaron ground-state energy in the strong coupling region

N.I. Kashirina

437-441

Saturation effect for dependence of the electrical conductivity of planar oriented nematic liquid crystal 6CB on the concentration of Cu₇PS₆ nanoparticles

O.V. Kovalchuk, I.P. Studenyak, V.Yu. Izai, S.O. Rybak, A.I. Pogodin, P. Kopčanský, M. Timko, V. Gdovinova, J. Mariano, T.M. Kovalchuk

442-446

Modeling of ionizing radiation effect on static and dynamic behavior of vertical cavity surface emitting lasers

Sh.M. Eladl, K.A. Sharshar

447-457

Comparison of some different ways used for approximate solution of kinetic equation and calculations of carrier mobility

I.I. Boiko

458-464

Fluorescence of molecules placed near a spherical particle: Rabi splitting

M.M. Dvovenko

465-469

Optical properties of thin erbium oxide films formed by rapid thermal annealing on SiC substrates with different structures

Yu.Yu. Bacherikov, R.V. Konakova, O.B. Okhrimenko, N.I. Berezovska, L.M. Kapitanchuk, A.M. Svetlichnyi

470-474

Trap-assisted conductivity in anodic oxide on InSb

G.V. Beketov, A.V. Sukach, V.V. Tetyorkin, S.P. Trotsenko

475-480

Photoconductivity relaxation and electron transport in macroporous silicon structures

L.A. Karachevtseva, V.F. Onyshchenko, A.V. Sachenko

481-482

Comments on the “Metallic nanoparticles (Cu, Ag, Au) in chalcogenide and oxide glassy matrices ...”

T.S. Kavetsky, A.L. Stepanov
