

МЕЖДУНАРОДНЫЕ ЭНДОКРИНОЛОГИЧЕСКИЕ ФОРУМЫ

23–25 October 2014, Abu Dhabi

The Second Clinical Congress and Gulf Chapter Annual Meeting

Building on the success of the first edition of The Second Clinical Congress

and Gulf Chapter Annual Meeting in 2014, once again, we are delighted to welcome you in the bustling metropolitan city of Abu Dhabi.

The 2014 edition has taken a graceful step towards the international arena in order to deliver a higher caliber meeting. The scientific committee has therefore compiled the ample meeting that will deliver plenty of educational opportunities in the growing and exciting field of endocrinology, diabetes and metabolism.

Furthermore we are delighted to invite delegates to attend our exclusive workshops on Thyroid Ultrasound which is offered in conjunction with the congress.

Through a culmination of collective efforts, the congress will convene over a three-day program and present a high-level scientific content with major updates and state of the art lectures, plenary sessions and clinical practice symposia. The sessions will cover major updates and state-of-the art presentations delivered by international and regional keynote speakers.

29–31 October 2014, Cairo

Founded on 2006 is an international leading non-profit health organization providing diabetes research, information and advocacy

The global prevalence of different types of diabetes is rising steadily. Until recently type 2 diabetes was typically regarded as a disease of the middle aged and elderly. Evidence is accumulating that onset in those aged under 30 years is increasing. Even children and adolescents are now becoming caught up in the diabetes epidemic. The Arabic Association for the Study of Diabetes and Metabolism AASD will share in wide range of activities.

IDF-WPR Congress 2014: The definitive medical forum in the Western Pacific Region on the care, prevention and treatment of diabetes

Hosted by the Diabetic Society of Singapore, the 10th International Diabetes Federation-Western Pacific Region (IDF-WPR) Congress 2014 will be held from **21 to 24 November** in Singapore.

The continuing battle against diabetes requires an alliance of people with diabetes, healthcare professionals, scientists and policy makers. As a federation comprising 28 diabetes-related societies and associations in Asia Pacific, the IDF-WPR Congress is the leading platform for learning and cooperation in the field of diabetes in the region.

The 10th IDF-WPR Congress 2014 will be jointly held with the 6th Asian Association for the Study of Diabetes (AASD) Meeting. The AASD comprises of academic societies, associations and members from East and Southeast Asia, and the AASD meeting is held annually, with the aim to improve levels of clinical and basic research on diabetes in the region.

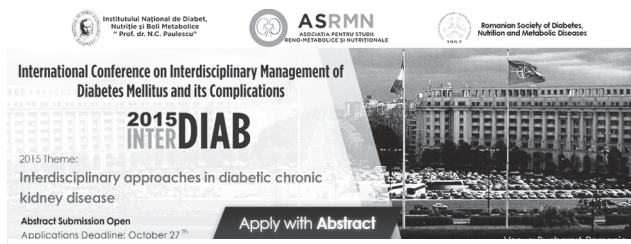

IDEA Summit's 2nd edition to be held on **December 2nd & 3rd, 2014 in Lille** (France), is jointly organized with the 3rd European Genomic Institute for Diabetes (E.G.I.D.)

Symposium Co-organized by Lund University, Eurasant, & the Nutrition Health Longevity (NHL) cluster, IDEA Summit is an international event dedicated to translational research on diabetes.

IDEA Summit gathers 150 attendees coming from all over Europe such as Pharma & Biotech professionals, Academic Scientists, TTOs, VCs, Policy makers, Regulatory & Financing bodies, Biobanks, Patients association.

International Conference on Interdisciplinary Management of Diabetes Mellitus and its Complications

2015 INTERDIAB

2015 Theme: Interdisciplinary approaches in diabetic chronic kidney disease

Abstract Submission Open
Applications Deadline: October 27th **Apply with Abstract**

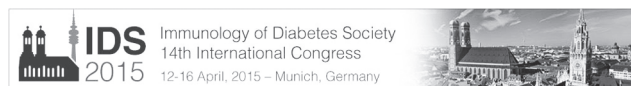

International Conference on Interdisciplinary Management of Diabetes Mellitus and its Complications INTERDIAB

2015 Theme: Interdisciplinary Approaches in Diabetic Chronic Kidney Disease

FIRST ANNOUNCEMENT
March 27th – 28th, 2015
Bucharest, Romania

International Conference on Interdisciplinary Management of Diabetes Mellitus and its Complications aims to become a discussion forum and a meeting place for Researchers and Professionals in the study of diabetes.

It is notable that organizers desire to create an environment of excellence to promote original research papers in the field by organizing this Conference annually, through debate and careful analysis of the results presented, by active involvement in their implementation in hospital.

IDS 2015 Immunology of Diabetes Society
14th International Congress
12-16 April, 2015 - Munich, Germany

Immunology of Diabetes Society 14th International Congress

12–16 April 2015 | Hilton Munich Park, Munich, Germany

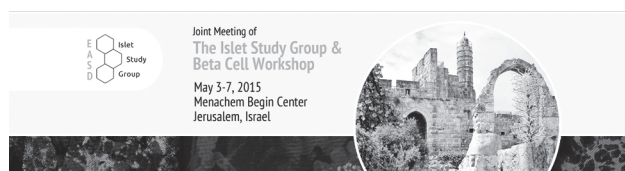

The IDS is challenged by the increasing number of children with type 1 diabetes worldwide, an autoimmune disease that can occur at any age, and our limited ability to change its course once autoimmunity has started. We are in exciting times with an unprecedented ability to generate data together, and this calls for us to see, hear, and discuss the data openly, critically, and constructively. This is the spirit of IDS 2015. We will bring together the experts, the data, those who think the same, those who think differently, and those who fund us to find the cause and the cure. Most of all, we want all of you who contribute to changing the course of autoimmune diabetes to be at the IDS in Munich, where we hope the relaxed Bavarian atmosphere will help us all achieve this. Together, we will be looking at what leads to islet autoimmunity in children, the biomarkers that stage checkpoints of disease development and intervention, what goes on inside the pancreas, and how we are and should be intervening to change the course of disease.

Asia Pacific CODHy
The 2nd Asia Pacific Congress on Controversies to Consensus in Diabetes, Obesity and Hypertension
April 16-18, 2015, Shanghai, China

We are proud to announce that the **2nd Asia Pacific Congress on Controversies to Consensus in Diabetes, Obesity and Hypertension (CODHy)** will take place in Shanghai, China, **April 16–18, 2015**.

The great success of the 1st CODHy Asia Pacific Congress, held in Shanghai, 2011, and the enthusiastic feedback from the latest CODHy China Congress, highlighted the need to continue to deliver dynamic and highly engaging congresses to the International community. We are excited to pronounce that CODHy Asia Pacific will be devoted to evidence-based debates and discussions amongst chairpersons, speakers and the audience, all of whom will examine and analyze the most relevant issues raised during the course of 2013–2014 within the fields of Diabetes, Obesity and Hypertension. This educational Congress will continue to focus and discuss at large the most contentious issues in the three scientific fields.

Joint Meeting of
The Islet Study Group &
Beta Cell Workshop
May 3-7, 2015
Menachem Begin Center
Jerusalem, Israel

It is our pleasure to invite you to attend the Joint Meeting of The Islet Study Group & Beta Cell Workshop, to take place on **May 3–7, 2015**, at the Menachem Begin Center, Jerusalem, Israel.

Both the EASD Islet Study Group of the European Association for the Study of Diabetes (EASD), and the Beta-cell Workshop focus on pancreatic islet biology and its relevance to diabetes. For the first time, both organizations have decided to join forces and to hold a joint meeting in 2015. We are honored that they chose the fascinating city of Jerusalem for the meeting venue and have asked us to help organize the meeting.

This joint format has allowed us to offer expert faculty, facilitating an exceptional opportunity for established and young investigators to exchange the latest concepts and data, as well as providing excellent networking prospects.
