Summary

Polishchuk O. Person in Collective Act of Civil Society. Modern existence of a person is studied and it is determined that the reason of collective activity of social groups and civil society are the needs and a person's interest. It is clarified that the power with the help of virtualization of social, political, and economic life impedes society's consolidation, weakening in its turn collective activity of civil society and social groups which are its components. The meaning of personality's identification in collective activity is shown. Keywords: person, society, civil society, social group, collective activity.
