#### Summary

**Ruptash O. Methodological potential of the humanities in the process of integration of sciences.** *Discrepant attitudes of postmodern culture are analyzed. Some of them, which are commensurate with synergetic scientific paradigm, are highlighted. The role and importance of the humanities in the academic integration are revealed. We investigate the specificity of humanitarian methodology and the possibility of actualization of its potential in the process of integration. Keywords: human knowledge, human sciences, integration, postmodernism, post-non-classical science, synergetics, meaning, unification.*
