Summary

Pochynok B. Pluralism as a Principle of Postpositivist Philosophy of Science. It has been shown that in the postpositivist philosophy of science the strengthening of the principle of pluralism was having place in the rivalry with monism concerning the represented by neopositivism a science pattern. The decisive factor has been shown to be refutation of the ideas of the possibility of unconditioned substantiation of knowledge and valuable neutrality of science. Keywords: monism, neopositivism, postpositivism, pluralism, standard science pattern, fundamentalism.
