

## **РОЛЬ ЄВРОПЕЙСЬКОГО ПАРЛАМЕНТУ В ЗОВНІШНІХ ВІДНОСИНАХ ЄС НА ПОЧАТКУ ІНТЕГРАЦІЙНИХ ПРОЦЕСІВ**

*The article is dedicated to the study of the specific features of the development of the European Parliament's role in the EU external relations. The article provides the legal and historic analysis of the practice of the Parliament's participation in the EU international affairs at the initial period of the European integration. The major conclusion of the provided analysis is the thesis that the further development of the European Parliament's competences and the formal codification of the competences at the level of the founding treaties are directly connected with the successful practice of the European Parliament in the EU relations with third countries within the first decades of the European integration.*
