

## Електронні властивості низьковимірних систем

### До сімдесятиріччя від дня народження І.В. Кріве

Відповідальні за випуск С.І. Кулініч, Р. Шехтер

<i>Вступление</i> .....	1575
<i>M. Jonson, R.I. Shekhter, O. Entin-Wohlman, A. Aharony, H.C. Park, and D. Radić</i> Mechanically driven spin-orbit-active weak links .....	1577
<i>S.I. Kulinich and L.Y. Gorelik</i> Cooling of mechanical vibrations by heat flow .....	1582
<i>A.A. Zvyagin</i> Correlated electrons in a zig-zag chain with the spin-orbit interaction: Exact solution .....	1588
<i>A.M. Kadigrobov</i> Scattering problems and boundary conditions for 2D electron gas and graphene .....	1598
<i>S.G. Castillo-López, F. Pérez-Rodríguez, and N.M. Makarov</i> Quantum discretization of Landau damping .....	1606
<i>Yurii A. Sitenko and Volodymyr M. Gorkavenko</i> Properties of the ground state of electronic excitations in carbon-like nanocones .....	1618
<i>S. Cortés-López and F. Pérez-Rodríguez</i> Nonlocal optical response of a layered high-temperature superconductor slab .....	1630
<i>Yurii Zubov, Bahram Djafari-Rouhani, and Arkadii Krokhin</i> Dynamical effective parameters of elastic superlattice with strong acoustic contrast between the constituents .....	1639
<i>A.B. Артемов, Е.В. Езерская</i> Низкотемпературные свойства конечных XX-цепочек с дополнительным изинговским спином .....	1645
<i>V. Slavin and Y. Savin</i> Superdiffusive transport in one-dimensional disordered Dirac model .....	1654
<i>И.В. Козлов, Ю.А. Колесниченко</i> Фриделевские осцилляции в 2D электронном газе со спин-орбитальным взаимодействием в параллельном магнитном поле .....	1661
<i>В.Ф. Клепиков</i> Калибровочный принцип и спонтанное нарушение симметрии .....	1673
<i>D.O. Oriekhov, E.V. Gorbar, and V.P. Gusynin</i> Electronic states of pseudospin-1 fermions in dice lattice ribbon .....	1678
<i>A.V. Parafilo and M.N. Kiselev</i> Landau-Zener transitions and Rabi oscillations in a Cooper-pair box: beyond two-level models .....	1692
<i>М.М. Богдан, В.И. Белан, О.В. Чаркина</i> Влияние магнитного поля на устойчивость и спектр возбуждений спиновых нанокластеров в анизотропных ферромагнитных цепочках .....	1700
<i>М.П. Колодяжная, Г.А. Звягина, И.В. Билыч, К.Р. Жеков, Н.Г. Бурма, В.Д. Филь, И.А. Гудим</i> Магнитоемкость, магнитоупругость и магнитопьезоэлектрический эффект в $\text{HoFe}_3(\text{BO}_3)_4$ .....	1712
<i>А.Б. Бабаев, А.К. Муртазаев</i> Компьютерное моделирование критического поведения сильно разбавленных низкоразмерных антиферромагнитных систем на треугольной решетке .....	1721

## Electronic properties of low-dimensional systems

### To the 70th birthday of I.V. Krive

Guest Editors S.I. Kulinich and R.I. Shekhter

<i>Preface</i> .....	1575
<i>M. Jonson, R.I. Shekhter, O. Entin-Wohlman, A. Aharony, H.C. Park, and D. Radić</i> Mechanically driven spin-orbit-active weak links .....	1577
<i>S.I. Kulinich and L.Y. Gorelik</i> Cooling of mechanical vibrations by heat flow .....	1582
<i>A.A. Zvyagin</i> Correlated electrons in a zig-zag chain with the spin-orbit interaction: Exact solution .....	1588
<i>A.M. Kadigrobov</i> Scattering problems and boundary conditions for 2D electron gas and graphene .....	1598
<i>S.G. Castillo-López, F. Pérez-Rodríguez, and N.M. Makarov</i> Quantum discretization of Landau damping .....	1606
<i>Yurii A. Sitenko and Volodymyr M. Gorkavenko</i> Properties of the ground state of electronic excitations in carbon-like nanocones .....	1618
<i>S. Cortés-López and F. Pérez-Rodríguez</i> Nonlocal optical response of a layered high-temperature superconductor slab .....	1630
<i>Yurii Zubov, Bahram Djafari-Rouhani, and Arkadii Krokhin</i> Dynamical effective parameters of elastic superlattice with strong acoustic contrast between the constituents .....	1639
<i>A.V. Artemov and E.V. Ezerskaya</i> Low-temperature properties of finite <i>XX-chains</i> with an additional Ising spin .....	1645
<i>V. Slavin and Y. Savin</i> Superdiffusive transport in one-dimensional disordered Dirac model .....	1654
<i>I.V. Kozlov and Yu.A. Kolesnichenko</i> Friedel oscillations in 2D electron gas with spin-orbit interaction in parallel magnetic field .....	1661
<i>V.F. Klepikov</i> Calibration principle and spontaneous symmetry breaking .....	1673
<i>D.O. Oriekhov, E.V. Gorbar, and V.P. Gusynin</i> Electronic states of pseudospin-1 fermions in dice lattice ribbon .....	1678
<i>A.V. Parafilo and M.N. Kiselev</i> Landau–Zener transitions and Rabi oscillations in a Cooper-pair box: beyond two-level models .....	1692
<i>M.M. Bogdan, V.I. Belan, and O.V. Charkina</i> Effect of magnetic field on stability and excitation spectra of spin nanoclusters in anisotropic ferromagnetic chains .....	1700
<i>M.P. Kolodyazhnaya, G.A. Zvyagina, I.V. Bilych, K.R. Zhekov, N.G. Burma, V.D. Fil, and I.A. Gudim</i> Magnetocapacitance, magnetoelasticity and magnetopiezoelectric effect in $\text{HoFe}_3(\text{BO}_3)_4$ .....	1712
<i>A.B. Babaev and A.K. Murtazaev</i> Computer simulation of critical behavior of strongly diluted low-dimensional antiferromagnetic systems on the triangulare lattice .....	1721
