

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 1/1(45), 2019

CONTENTS

MECHANICAL ENGINEERING TECHNOLOGY

- 4** Investigation of the influence of vibration oscillations in the processes of strengthening processing of machine parts
Dudnikov A., Dudnik V., Kanivets A., Bilovod O., Burlaka A.

MECHANICS

- 10** Estimation of the drill pipes residual resource under the multiaxial stress state
Kopey B., Artym V., Rachkevych I., Rachkevych R.
- 15** Laboratory research of the stress-strain state of the drill string in the local bend of the well
Rachkevych R., Ivasiv V., Bui V., Yurych L., Rachkevych I.

MATERIALS SCIENCE

- 25** Continual description of polycrystalline systems taking into account their structure
Kuzin O., Lukiyanets B., Kuzin N.
- 31** Investigation of electrophysical properties of nanomodified fireproof EVA polymer compositions
Chulieieva O.

ELECTRICAL ENGINEERING AND INDUSTRIAL ELECTRONICS

- 39** The development of the mathematical model of a nonlinear electrical circuit with an independent controllable electromechanical energy converter
Ostroverkhov M., Trinchuk D.

TECHNOLOGY AND SYSTEM OF POWER SUPPLY

- 44** Numerical investigation of the problem of nonlinear three-phase filtration
Qasimov S., Mammadov R., Karimova S.
- 50** Diagnostics of the pre-fault situation of the bolted current-carrying joint in the conditions of changing regime parameters
Kryvonosov V.
- 58** Abstracts and References
