

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 1/2(45), 2019

CONTENTS

INFORMATION TECHNOLOGIES

- 4** Improvement of the enterprise infrastructure evaluation method
Levykin V., Iuriev I.
- 9** Development of information technology for the automated construction and expansion of the temporal knowledge base in the tasks of supporting management decisions
Chala O.

SYSTEMS AND CONTROL PROCESSES

- 15** Optimization of the method of constructing reference plans of multimodal transport problem
Zabolotnii S., Mogilei S.
- 21** Approval of optimal pipeline's cleaning methods according to multiphase flow patterns
Gorin P., Tymkiv D., Bratakh M., Filipchuk O.
- 30** Rationalization of port infrastructure management during ice navigation
Lysyy A., Kotenko V., Yakovtsev S.
- 35** Research of the of identification algorithm of control object of second-order links with a delay time
Loriia M.
- 44** Synthesis of towed underwater vehicle spatial motion automatic control system under uncertainty conditions
Blintsov V., Blintsov O., Sokolov V.

REPORTS ON RESEARCH PROJECTS

- 52** Methodological provision of human resources management in a multi-project environment
Dotsenko N.
- 55** Abstracts and References
