

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 4/1 (48), 2019

CONTENTS

MECHANICS

- 4 Determination of the technical state of buildings and constructions after force and temperature influences
Gordiuk M., Semynoh M., Holodnov O., Tkachuk I.
- 11 The development of a three-dimensional model of the ice growth process on aerodynamic surfaces
Alekseyenko S., Yushkevich O.

ELECTRICAL ENGINEERING AND INDUSTRIAL ELECTRONICS

- 19 Application of Cassini ovals for the formation of the 24-hour light attention of the runway
Mel'nick V., Shybetsky V.

TECHNOLOGY AND SYSTEM OF POWER SUPPLY

- 26 Analysis of experience, safety and prospects of diversification of nuclear fuel at nuclear power plants
Skalozubov V., Melnik S., Pantak O., Gryb V., Spinov V., Komarov Yu.

REPORTS ON RESEARCH PROJECTS

- 34 Research of gas content and interfacial area in the downflow pipes of a circulation apparatus with jet injection gas filling
Ved V., Nikolsky V., Okhtina O., Kiselev V.
- 39 Experimental determination of the spectrum of structure vibrations under the influence of technological load
Vabishevich M., Dedov O., Glitin O.
- 43 Research of the possibility of using thermoelectric elements (TEE) in wells with low geothermal gradient
Gabdrakhmanova K., Izmailova G.
- 46 Choice of optimal technological operation mode of off-shore gas-condensate wells exploited in complicated conditions
Samadov T., Novruzova S.

MECHANICAL ENGINEERING TECHNOLOGY

- 52 Development and optimization of technology and modernization of forging line for bearing rings
Girshfeld A., Simson E.
- 62 Abstracts and References
