

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

№ 4/2(48), 2019

CONTENTS

INFORMATION TECHNOLOGIES

- 4 Adaptation of flexible project management models based on Scrum and Kanban technologies
Popova O.
- 10 Analysis of problems of forecasting of financial instruments in stock markets
Kruhlov A., Pyroh M.

SYSTEMS AND CONTROL PROCESSES

- 16 Control synthesis for 4WS vehicle-robot model for traffic program motion
Tatievskiy D.

REPORTS ON RESEARCH PROJECTS

- 24 Development of a system model for the functioning of distribution electrical supply systems in transport infrastructure projects
Kulbovskiy I., Holub H., Skliarenko I., Bambura O., Soloviova O.
- 28 Development of a differential block coding method for application in mobile radio communication systems using MIMO systems
Tokar M.
- 34 Prognosis of hydrocarbon recovery coefficients of offshore gas and gas-condensate fields
Samadov T., Novruzova S., Samadzade A.
- 38 Investigation of one linear non-smooth two-parameter discrete optimal control problem
Nasiyyati M.
- 42 Abstracts and References
