**C O N T E N T S**

<i>A. A. Dorogovtsev, O. L. Izyumtseva</i>	
On self-intersection local times for generalized Brownian bridges and the distance between step functions	<b>1</b>
<i>V. V. Fomichov</i>	
Evolution of moments of isotropic Brownian stochastic flows	<b>14</b>
<i>Jean-Sébastien Giet, Pierre Vallois, Sophie Wantz-Mézières</i>	
The logistic S.D.E.	<b>28</b>
<i>E. V. Glinyanaya</i>	
Krylov–Veretennikov representation for the $m$ -point motion of a discrete-time flow	<b>63</b>
<i>I. A. Korenovska</i>	
Random maps and Kolmogorov widths	<b>78</b>
<i>A. V. Marynych</i>	
A note on convergence to stationarity of random processes with immigration	<b>84</b>
