

Contents

Food technologies

<i>Zhanna Petrova, Yury Snezhkin, Kateryna Getmanyuk, Nataliya Dmytrenko, Mykola Vorontsov</i> Intensifying drying process with creation of functional plant compositions.....	167
<i>Anatoliy Mazur</i> The potato chips and dry mashed as products of potato rational processing	175
<i>Nesho Toshkov, Naiden Delchev, Siyka Kozludzhova</i> Sorption characteristics of pectin isolated from Jerusalem Artichoke tubers (<i>Helianthus tuberosus L.</i>).....	185
<i>Olena Kalinina, Oleksandr Kovalenko, Olga Kornilova</i> Investigation of viscosity of whole hydrolyze sweetened condensed milk.....	193
<i>Oksana Lugovska, Vasyl Sydor</i> Effect of starch as hydrocolloids for formation of a stable emulsion system in food	202
<i>Alexei Baerle, Olga Dimova, Larisa Zadorojnai, Pavel Tatarov, Alla Zenkovich</i> Electrophoresis of oil-containing edible microcapsules with protein- polyuronic shells.....	211
<i>Svitlana Mykolenko, Dmytro Stepankiy Anna Tishchenko, Oleksandr Pivovarov</i> Investigation of the effect of water exposed to nonequilibrium contact plasma onto <i>saccharomyces cerevisiae</i> yeast	218
<i>Bogdan Yegorov, Ilona Malaki</i> Technological foundations of processing tomato pomace in feed additives	228
<i>Mykola Golovko, Maksym Serik, Tetiana Golovko, Valentyn Polupan</i> Micro structural characteristics of minced meat products from use of protein-mineral additive.....	236
<i>Myushfik Bakirov, Mykola Golovko, Maksim Serik, Tetiana Golovko</i> Content iodine in sauces of type emulsion.....	243
<i>Galyna Diukareva, Andrii Pak, Anna Gasanova</i> Determination of storage conditions for new biscuits using their sorption isotherms.....	249

Biotechnology, microbiology

Mykola Ivahniuk, Tetyana Pirog

Intensification of microbial exopolysaccharide ethapolan synthesis under *Acinetobacter* sp. IMV B-7005 cultivation on sunflower oil 257

Processes and equipment of food productions

Volodymyr Piddubnyi, Volodymyr Kryvorotko

Definition energy consumption for overclocking powered by mass with sinusoidal acceleration and synthesis drive mechanism 263

Eduard Biletskii, Olena Petrenko, Dmytro Semeniuk

Theoretical aspects of non-newtonian fluids flow simulation in food technologies 270

Ivanna Kyrychuk, Yuriy Zmievska, Valeriy Myronchuk

Treatment of dairy effluent model solutions by nanofiltration and reverse osmosis 280

Life safety

Serhii Kovalenko, Alina Siryk, Ivanna Vlasiuk

Planning of elimination of emergency consequences 288

Abstracts 295
