

Contents

Food technologies	237
<i>Dimitar Dimitrov, Tatyana Yoncheva, Vanyo Haygarov</i> Methanol content in grape and fruit brandies: a major indicator for authenticity and safety.....	237
<i>Aslıhan Demirdöven , Taner Baysal</i> Inactivation effect of microwave heating on pectin methylesterase in orange juice.....	248
<i>Lyudmila Vinnikova, Andrey Kishenya, Irina Strashnova</i> Lactic acid bacteria compositions for application in the meat industry.....	262
<i>Inna Pylypenko, Liudmyla Pylypenko, Elena Sevastyanova, Evgeniy Kotlyar, Ruslana Kruchek</i> Epiphytic and regulated microbial contaminants of food vegetable raw materials and products.....	272
<i>Valerii Mank, Tetyana Polonska</i> Use of natural oils as bioactive ingredients of cosmetic products.....	281
<i>Oleksandr Rozhno, Olena Podobiy, Vira Yurchak</i> Rheological properties of gelatine solutions for production of gluten-free pasta	290
Biotechnology, microbiology	299
<i>Demet Kocatepe, Gökay Taşkaya, Hülya Turan, Yalçın Kaya</i> Microbiological investigation of wild, cultivated mussels (<i>Mytilus galloprovincialis</i> L. 1819) and stuffed mussels in Sinop–Turkey.....	299
<i>Izzet Turker, Gokhan Domurcuk, Mehmet Tokatli, Hilal Isleroglu, Banu Koc</i> Enhancement of microbial transglutaminase production from <i>Streptomyces</i> sp.	306
<i>Lubov Musiy, Orysia Tsisaryk, Iryna Slyvka, Oleg Galenko</i> The influence of technological parameters of creams fermentation on formation of functional peculiarities of cultured butter.....	314

Food chemistry	326
<i>Iliana Nikolova, Marin Marinov, Petja Marinova, Atanas Dimitrov, Neyko Stoyanov</i>	
Cu(II) complexes of 4- and 5- nitro-substituted heteroaryl cinnamoyl derivatives and determining their anticoagulant activity.....	326
 Processes and equipment of food productions	 350
<i>Taras Pogorilyy</i>	
Non-stationary sucrose diffusion mass flow calculation for sucrose solution cells from the «larger sugar crystal–larger sugar crystal sucrose solution–less sugar crystal sucrose solution–smaller sugar crystal–massecuite» system cells depending on the boiling sugar massecuite time.....	350
<i>Oleksandr Bessarab, Oleksandr Obodovich, Vitalii Sydorenko</i>	
Intensification of mass transfer processes in gas-liquid media by discrete – pulse energy input method.....	368
<i>Djamalutdin Chalaev, Nina Silnyagina, Oleksii Shmatok, Oleksandr Nedbailo</i>	
Heat transfer enhancement in a corrugated tube heat exchanger.....	376
 Economics and management	 387
<i>Oleksandr Yatsenko</i>	
Methodical bases of rating of investment appeal of Ukraine rural areas	387
 Abstracts	 397
 Instructions for authors	 423
