

CONTENTS

| | |
|---|-----|
| Envelopes of optical interference spectra for duplex and triplex layered structures <i>Kosobutskyy P.S. and Kushnir O.P.</i> | 73 |
| Comparative analysis of techniques for diagnostics of phase singularities <i>Felde Ch.V., Polyanski P.V. and Bogatyryova H.V.</i> | 82 |
| Optical properties of diffuse ZnSe:Mn layers <i>Makhniy V.P., Kinzerskaya O.V., Horley P.P. and Ul'yanitskiy K.S.</i> | 91 |
| Light propagation in layered photonic crystals with admixture layers <i>Rumyantsev V.V., Fedorov S.A. and Gumennyk K.V.</i> | 97 |
| Joint spatial-frequency distribution of Gaussian signals and prospects of its applications for description of optical systems <i>Kozlovskii Yu. M.</i> | 105 |
| Correlation method for measuring the largest Lyapunov exponent in optical fields <i>Gavrylyak M.S., Maksimyak A.P. and Maksimyak P.P.</i> | 119 |
