

## CONTENTS

Optical properties of $A_2^{IV}B_2^VC_6^{VI}$ ferroelectrics-semiconductors: the effect of temperature and hydrostatic pressure. <i>Gerzanich E.I.</i>	129
Spontaneous emission spectra of organic molecules in synthetic opal photonic crystals <i>Guziy O.O., Abu Sal B., Moiseyenko V.N., Dergachov M.P. and Shvachich V.G.</i>	164
Optical studies of order parameter fluctuations in solid solutions based on lead germanate crystals <i>Kushnir O.S., Shopa R.Y. and Vlokh R.O.</i>	169
Potentiality of experimental analysis for characteristics of the Poynting vector components <i>Khrobatin R., Mokhun I. and Viktorovskaya J.</i>	182
All-optical logic gates based on nonlinear dielectric films <i>Dzedolik I.V., Lapayeva S.N. and Rubass A.F.</i>	187
Effect of iron-group ions on the UV absorption of $TiO_2$ <i>Kernazhitsky L., Shymanovska V., Naumov V., Chernyak V., Khalyavka T. and Kshnyakin V.</i>	197
