

## CONTENTS

---

|   |     |
|---|-----|
| Optical parameters of CaF <sub>2</sub> , LiF, NaCl and KCl single crystals<br>in the X-ray spectral range   |     |
| <i>Raransky M.D., Balazyuk V.N., Sergeev V.M. and Melnyk M.I.</i>   | 45  |
| Stabilisation of surface and photoluminescent properties of porous silicon  |     |
| <i>Olenych I.B.</i>   | 54  |
| Non-canonical propagation of high-order elliptic vortex beams in a<br>uniaxially anisotropic medium   |     |
| <i>Fadeyeva T., Alexeyev C., Sokolenko B., Kudryavtseva M. and Volyar A.</i>  | 62  |
| Supermodes of a double-ring fibre array with symmetric coupling   |     |
| <i>Alexeyev C.N., Fadeyeva T.A., Boklag N.A. and Yavorsky M.A.</i>  | 83  |
| Demonstration of optical beating in the reflectance and transmittance<br>spectra of multilayer structures   |     |
| <i>Kosobutskyy P.S., Bilyj J.M. and Kushnir O.P.</i>  | 89  |
| Measurements of piezooptic coefficients $\pi_{14}$ and $\pi_{25}$ in Pb <sub>5</sub> Ge <sub>3</sub> O <sub>11</sub> crystals<br>using torsion induced optical vortex |     |
| <i>Vasylykiv Yu., Skab I. and Vlokh R.</i>  | 101 |
