

## CONTENTS

---

Modulation of mid-IR radiation by a gated graphene on ferroelectric substrate <i>Strikha M.V.</i>	161
Acoustooptic figure of merit for $\text{Sn}_2\text{P}_2\text{S}_6$ crystals and the temperature dependences of acoustic wave velocities <i>Mys O., Martynyuk-Lototska I. and Vlokh R.</i>	166
On the spin-to-orbit momentum conversion operated by electric field in optically active $\text{Bi}_{12}\text{GeO}_{20}$ crystals <i>Vasylykiv Yu., Krupych O., Skab I. and Vlokh R.</i>	171
Studies of piezooptic coefficients in $\text{LiNbO}_3$ crystals using a crystalline disk compressed along its diameter <i>Vasylykiv Yu., Savaryn V., Smaga I., Krupych O., Skab I. and Vlokh R.</i>	180
Explicit representation of extended Jones matrix for oblique light propagation through a crystalline slab <i>Nastishin Yu. A. and Nastyshyn S. Yu.</i>	191
