

## CONTENTS

---

Luminescence spectrum of 2-(2'-hydroxyphenyl)benzoxazole in the solid state <i>Syetov Y.</i>	1
Growth, crystal structure, thermal properties and optical anisotropy of $Tl_4CdI_6$ single crystals <i>Franiv A. V., Kushnir O. S., Girnyk I. S., Franiv V. A., Kityk I., Piasecki M. and Plucinski K. J.</i>	6
Optical absorption of polydisperse $TiO_2$ : Effect of surface doping by transition metal cations <i>Kernazhitsky L., Shymanovska V., Gavrilko T., Naumov V. and Kshnyakin V.</i>	15
THz response of nonequilibrium electrons of highly doped graphene on a polar substrate <i>Kukhtaruk S. M.</i>	24
Do optical quarks exist in the free space? A scalar treatment. <i>Volyar Alexander V.</i>	31
Photoacoustic response of a common starfish tissue <i>Guskos N., Majszczyk J., Typek J., Rybicki J. and Padlyak B.</i>	44
Efficiency of spin-to-orbit conversion in crystals subjected to torsion stresses <i>Vasylykiv Yu., Skab I. and Vlokh R.</i>	50
