

CONTENTS

Manifestations of acoustical activity in TeO ₂ crystals: The appearance of circularly phase difference <i>Zapeka B., Mys O. and Vlokh R.</i>	47
Passively Q-switched fibre laser based on interaction of evanescent field in optical microfibre with graphene-oxide saturable absorber <i>Jaddoa M.F., Faruki M.J., Razak M.Z.A., Azzuhri S.R. and Ahmad H.</i>	58
Conditions of appearance of the topological defects of optical indicatrix orientation in the glasses with residual stresses: Movement of the defects under application of external mechanical stress to CaB ₄ O ₇ glasses <i>Vasylykiv Yu., Kryvyy T., Skab I. and Vlokh R.</i>	65
Photostability testing for coumarin-153 doped ZnO thin films prepared with spin-coating technique <i>Marijana Brankov and Kitsakorn Locharoenrat</i>	75
Evolution characteristics of shock pressure wave on the copper target irradiated by far-field laser beams <i>Xueyun Han, Yufeng Peng and Yi Zhang</i>	81
