

CONTENTS

Solid Matter

- Nakhodkin M.G., Fedorchenko M.I.* Interaction of Oxygen and Gadolinium with Si(100)- 2×1 Surface. Formation of a System with 1-eV Work Function 97
- Prokopenko O.V.* Microwave Signal Sources Based on Spin-Torque Nano-Oscillators 104
- Sizov F.* Uncooled Wide-Range Spectral Optoelectronic Devices on the Base of HgCdTe Semiconductor 114
- Sologub S.V., Bordenjuk I.V., Tegenkamp C., Pfnür H.* Surface Scattering of Charge Carriers and Surface Electronic States 120

Nanosystems

- Afanasieva T.V.* Study of the Interaction of Atoms of the IV- and V-th Groups with Si(001) and Ge(001) Surfaces . . 130
- Voskoboynikov O.* Broken Reflection Symmetry and Diamagnetic Coefficient of Carriers Confined in Semiconductor Lateral Quantum Dot Molecules 141

- Goriachko A., Kulyk S.P., Melnik P.V., Nakhodkin M.G.* Scanning Tunneling Microscopy Investigation of the Si(001)-c(8×8) Nanostructured Surface 148
- Lopatina Ya.Yu., Senenko A.I., Marchenko A.A., Naumovets A.G.* Self-Organization of Long-Chain Aliphatic Molecules and Their Derivatives on Atomically Flat Surfaces 153
- Lyubinetsky I.V.* Key Role of M.G. Nakhodkin's Insight and Inspiration in Development of UHV STM-Related Techniques and Methods 160
- Nakhodkin N.G., Rodionova T.V., Sutyagina A.S.* Mechanisms of Surface Evolution during the Growth of Undoped Nanosilicon Films 165
- Repetsky S.P., Tretiak O.V., Vyshivanaya I.G.* Electron Structure and Electric Conductivity of Graphene with a Nitrogen Impurity 170

(This issue continues No. 1, Vol. 60 (2015))
