

## CONTENTS

### Fields and Elementary Particles

- Olimov Kh.K., Olimov K., Tojimatov Sh.D., Olimov A.K., Bozorov E.Kh., Lutpullaev S.L., Kanokova Sh.Z., Aliev M., Fazilov M., Yuldashev B.S.* Centrality Dependences of Characteristics of Negative Pions in  $\pi^- + {}^{12}\text{C}$  Interactions at 40 GeV/c ..... 93
- Kuzmichev V.E., Kuzmichev V.V.* Generalized Uncertainty Principle in Quantum Cosmology for the Maximally Symmetric Space ..... 100

### Optics, Atoms and Molecules

- Romanenko V.I., Kornilovska N.V., Udovyt'ska O.G., Yatsenko L.P.* Spatial Distribution of Atoms in the Field of Intersecting Standing Bichromatic Light Waves ..... 109
- Kravchenko V.M., Rud Yu.P., Buchatski L.P., Stepanenko Ye.Yu., Gryn D.V., Yashchuk V.M.* Spectroscopic Studies of Infectious Pancreatic Necrosis Virus, Its Major Capsid Protein, and RNA ..... 120

### General Physics

- Lesnikov V.P.* Reciprocal Relations for the Open Hydrodynamic Steady States (OHSS) ..... 126
- Gnatenko Kh.P.* Harmonic Oscillator Chain in Noncommutative Phase Space with Rotational Symmetry ..... 131

### Physics of Liquids and Liquid Systems, Biophysics and Medical Physics

- Vasilev A.N., Serhushev B.Y.* Peculiarities of Bacterial Chemotaxis in a Cylindrical Pore ..... 137
- Chechko V.E., Gotsulskiys V.Ya., Diieva T.V.* Qualitative Analysis of Clustering in Aqueous Alcohol Solutions. II ..... 143

### Semiconductors and Dielectrics

- Luniov S.V., Zimych A.I., Khvyshchun M.V., Maslyuk V.T., Megela I.G.* Features of Radiation-Defect Annealing in *n*-Ge Single Crystals Irradiated with High-Energy Electrons ..... 151
- Hashim A., Al-Attayah K.H.H., Obaid S.F.* Fabrication of Novel (Biopolymer Blend-Lead Oxide Nanoparticles) Nanocomposites: Structural and Optical Properties for Low-Cost Nuclear Radiation Shielding ..... 157
- Orletskyi I.G., Ilashchuk M.I., Maistruk E.V., Solovan M.M., Maryanchuk P.D., Nychyi S.V.* Electrical Properties of Sis Heterostructures *n*-SnS<sub>2</sub>/CdTeO<sub>3</sub>/*p*-CdZnTe ..... 164
- Gomonnai O.O., Ludemann M., Gomonnai A.V., Roman I.Yu., Slivka A.G., Zahn D.R.T.* Temperature Dependence of Raman-Active Modes of TlIn<sub>(0.95)Se<sub>0.05</sub></sub> Single Crystals ..... 173
