

CONTENTS

General Physics

- Tadjibaev I.U., Nuritdinov S.N.* Can Globular Clusters in the Galaxy Be Classified by the Velocity Anisotropy Parameter? 271
- Mohammad E.J., Kareem M.M., Atiyah A.J.* Synthesis of Carbon Nanotubes from Graphite and Investigation of the Catalytic Activity of MWCNTs/Cr₂O₃-NiO with the Removal of Bismarck Brown G Dye from Its Aqueous Solution 276

Physics of Liquids and Liquid Systems, Biophysics and Medical Physics

- Bulavin L.A., Zabashta Yu.F., Motolyha O.V.* Minimization of Dose Load in Algorithms of X-Ray Computed Tomography 282
- Khorolskyi O.V.* Calculation of the Effective Macromolecular Radii of Human Serum Albumin from the Shear Viscosity Data for Its Aqueous Solutions 287

Liquid Crystals and Polymers

- Iljin A., Wei D., Bortolozzo U., Residori S.* Dynamic Grating Recording by a Light-Induced Modification of the Order Parameter in Dye-Doped Chiral Nematic Liquid Crystals 293

Semiconductors and Dielectrics

- Degoda V.Ya., Alizadeh M.* Parameters of Charge Carrier Traps in ZnSe 300

- Pavelets S.Yu., Bobrenko Yu.N., Semikina T.V., Atdaev B.S., Sheremetova G.I., Yaroshenko M.V.* Ultraviolet Sensors Based on Zn_xCd_{1-x}S Solid Solutions 308
- Ikramov R.G., Nuriddinova M.A., Jalalov R.M.* Density of Defect States and Spectra of Defect Absorption in a-Si:H 315
- Dzhumanov S., Khidirov I., Kurbanov U.T., Khudayberdiev Z.S., Rashidov J.Sh.* Distinctive Features of Metal-Insulator Transitions, Multiscale Phase Separation, and Related Effects in Hole-Doped Cuprates 322
- Gasanov Kh.A., Guseinov J.I., Abbasov I.I., Askerov D.J., Sadig Kh.O.* Electron-Phonon Scattering in Quantum-Sized Films with the Hyperbolic Pöschl-Teller Potential 336

Surface Physics

- Alekseev O.M., Alekseev S.O., Zabashta Yu.F., Lazarenko M.M., Hnatiuk K.I., Lazarenko, M.V., Dinzhos R.V., Simeonov M.S.* Influence of Open-Porous System on the Solid-State Phase Transition in 1-Octadecene 340

Structure of Materials

- Vasilev A.N.* A Model of Gas Diffusion in a Metal Plate with Phase Transformation 348
- Mazur L.O., Bulavin L.A., Vygornitskii N.V., Lebovka N.I.* Effects of Brownian Motions on Electrical Conductivity and Optical Transparency of Two-Dimensional Films Filled by Needle-Like Particles 354
