The collection of scientific works considers the current theoretical and practical aspects of the implementation of international financial reporting standards and legislative regulation in the Russian companies.

A comparative analysis of the competitive position of Ukraine and Poland in different spheres is given, and directions of competitive advantages development and competitive capacity improvement in the global recession are proposed. The strategic priorities of the innovative capacity of the regions of Ukraine are selected.

The international trade implications of economic integration between Russia, Belarus and Kazakhstan and European trade policy instruments in the context of the harmonization of trade relations between Ukraine and the European Union are analyzed.

The articles of our colleagues from various scientific and educational institutions are published in the collection of scientific works.

The authorial views concerning certain positions do not necessarily agree with the views of the editorial board.

Articles are published in English.
