

CONTENTS

1	Korobko B.O., Storozhenko D.O., Dryuchko O.G., Bunjakina N.V., Khanyukov V.O. Autonomous automated accumulating complex for the robotized punching process	5
2	Artym V.I., Faflei O.Y., Pents V.F., Kariuk A.M. Features of durability calculation for machine parts and structural elements under high asymmetric low-amplitude load conditions	14
3	Kychma A.O., Predko R.Ya. Loading of structural elements of large-sized rotating aggregates during long-term operation	25
4	Vorontsov O.V., Tulupova L.O., Vorontsova I.V. Coatings discrete surfaces construction by superpositions of adjusted mesh frames	36
5	Orysenko O.V., Fenko O.G., Zotsenko M.L., Vynnykov Yu.L., Kharchenko M.O. Supported construction for quarry excavator travers	46
6	Orysenko O.V., Kryvorot A.I., Ilchenko V.V., Filipova H.A. The automobile tires vulcanization method repair process experimental investigation	56
7	Pichugin S.F., Patenko Yu.E., Maslova S.A. Probabilistic numerical characteristics of overhead cranes loads on industrial buildings frameworks	62
8	Makhinko A.V., Makhinko N.O. Analysis of the deflective mode of thin-walled barrell shell	69
9	Storozhenko L.I., Murza S.O., Yefimenko O.I. Capacity flexible compressed reinforced concrete elements reinforced with steel sheets	79
10	Semko P.O. Comparison of experimental studies and numerical modeling results of concrete filled tubular elements with demountable joints	88
11	Bondar V.O., Akhmednabiyev R.R. Durability of heavy concrete using boiler slags with circulating fluidized bed	97
12	Mitrofanov V.P., Pinchuk N.M. Essentials and problems solving algorithms of general strength theory of rc elements under complex stress-strain states	104
13	Karpiuk V.M., Kostiuk A.I., Somina Yu.A. Models of bay reinforced concrete elements resistance at action of cycle permanent sign high level forces	112

14	<i>Fenko O.G., Yurko I.A., Karabash L.V., Yurko P.A.</i> The influence of own stresses on tensile concrete strength	124
15	<i>Maliovana O.O.</i> Strength of higher strength concrete elements under shear action	131
16	<i>Mytrofanov P.B.</i> Research of durability compressed reinforced concrete elements from high–strength concrete based on the deformation model with extreme strength criterion	141
17	<i>Bidakov A.M., Raspopov I.A.</i> Test method of clt by tension perpendicular to grain	148
18	<i>Zotsenko M.L., Vynnykov Yu.L., Bondar V.O., Novokhatniy V.G.</i> Monitoring of the soil-cement piles buildings settlements	159
19	<i>Malyshev O.V.</i> Consolidation zones features formation of a ground around square shaped piles	167
20	<i>Naydenova V.E.</i> Laboratory experimental research of loading forces development acting on the side surface of the piles	174
21	<i>Lytvynenko T.P., Gasenko L.V., Sharyi G.I.</i> Features of street-road network modern designing and reconstruction in cities	181
22	<i>Filonenko O.I., Yurin O.I., Kodak O.A.</i> Energy performance of residential buildings	189
23	<i>Biletsky V.S., Mishchuk Yu.S., Kuznetsova Yu. I.</i> Static mixers in flushing fluid circulation systems of drilling rigs	197
24	<i>Nalyvaiko O.I., Vynnykov Yu.L., Nalyvaiko L.G., Petrash R.V., Ichanska N.V., Chyhyriov V.V.</i> Magnetic field influence technologies on high-paraffin crude oil in the pipeline with different caliber	208
25	<i>Soloviov V.V., Mykhailovska O.V., Yermakova I.A.</i> Conditions of a single intake descending of intermediate casing strings of an excessive weight compared to a derrick load capacity	214
26	<i>Kutnyi B.A., Pavlenko A.M.</i> Mathematical modeling of the thermodynamic process gas-steam bubbles	220
27	<i>Nesterenko M.P., Redkin O.V., Nesterenko T.M.</i> Directions and mechanisms of innovative high-tech and organizational development of real economy sector	227

28	<i>Redkin O.V., Pahomov R.I., Zyma O.E.</i> World experience of business processes organization build-investment projects new forms and management in the field of Ukraine complex objects development	238
29	<i>Dyachenko E.V., Drizhyruk Yu.V., Zyma O.E., Lazariiev D.M.</i> Works execution organization at building reconstruction and renovation with usage of slabs lifting method	246
30	<i>Molodid O.S.</i> Indicators of floor slabs reinforcement technical and economic investigation by different technologies	253
31	<i>Altukhova D.V.</i> Methodological principles of calendar planning by probabilistic character of construction	263
32	<i>Usenko V.H., Kodak O.A.</i> Probability of the utility networks double-ring structures' connectivity for sites with various reliability	270
33	<i>Semko O.V., Mahas N.M., Mishchenko A.R., Mishchenko R.R.</i> Moisture effects on the building walls	278
34	<i>Maksiuta N.S., Golik Yu.S.</i> Comprehensive study of atmospheric pollution in cities	285
35	<i>Nesterenko M.P., Dubrovskiy O.A., Kaiurin A.S.</i> The experience of civil engineering specialists with high qualification at Bialystok University of Technology	292
	<i>Anniversary celebrant</i>	300
