Contents

Theory of motion controllability of a wheel machine-tractor aggregate <i>V. V. Adamchuk, V. M. Bulgakov, V. T. Nadykto, I. V. Golovach</i>	3
Changes in organic part of the soil and acid-base balance depending on green manure fertilization in podzolized chernozem <i>G. M. Hospodarenko, O. L. Lysianskyi</i>	11
Determining the quality of diterpene glycosides, obtained from stevia leaves <i>M. V. Royik, I. V. Kuznetsova, V. O. Holodniak, V. S. Mazayeva</i>	19
Impact of sewage sludge application on the humus state of sod-podzolic soil of subcarpathia under energetic willow plantation <i>V. I. Lopushniak, G. M. Hrytsulyak</i>	26
Impact of the biological preparation Extrakon on photosynthetic apparatus, enzymatic activity of antioxidant enzymes and performance of spring wheat plants in the host-pathogen system <i>G. B. Guliyeva, I. P. Tokovenko, L. A. Pasichnyk, M. V. Patyka</i>	32
Association between leptin receptor gene polymorphism and quality of both meat and back fat in large white pigs of ukrainian breeding <i>V. N. Balatsky, I. B. Bankovska, A. M. Saienko</i>	42
The impact of different fertilization systems on content, composition, energy intensity of organic matter in chernozem soil <i>Ye. V. Skrylnik</i>	49
Role of chromium (III) in the nutrition of pigs and cattle <i>R. Ya. Iskra, V. V. Vlizlo, R. S. Fedoruk</i>	56
Self-regulation and management of fertility restoration of typical chernozem in agroecosystems <i>O. V. Demydenko, V. A. Velichko</i>	63
