Contents

The role of the biosphere reserve «Askania-Nova» in preserving the rare fauna of national and international importance <i>V. S. Havrylenko, V. P. Dumenko, I. K. Polishchuk</i>	3
Cytological features of pig oocytes in the process of spontaneous maturation <i>V. O. Lobchenko</i>	13
Miscanthus: genetic diversity and a method of ploidy variability identification using fluorescent cytophotometry <i>N. S. Kovalchuk, M. V. Roik</i>	19
Biological efficiency of citrates of microelements in animal breeding <i>R. Ya. Iskra, V. V. Vlislo, R. S. Fedoruk</i>	28
Alternative sources of vegetative mass for biofuels in Polissia zone <i>O. V. Vishnevskaya</i>	35
Dynamics of CO ₂ emission from chernozems under agricultural use <i>M. M. Miroshnychenko, O. P. Siabruk</i>	43
Agrogenesis of regraded chernozem and the performance of grain crops under organic system of fertilization <i>O. V. Demydenko, V. V. Prybluda, Yu. M. Zapasna, V. A. Velychko</i>	50
Ecological specificities of the interaction between animal breeding and climate changes, caused by greenhouse gas emissions <i>O. M. Zhukorsky, O. V. Nykyforuk, N. P. Boltyk</i>	62
Innovations of agro-food chains in Ukraine <i>O. M. Varchenko, D. F. Krysanov, O. A. Shust</i>	73
