

Volodymyr Liakhotsky. To the Problem of Creation of Ivan Ogienko Scientific Bibliography

Research workers of the Ukrainian State Scientific and Research Institute for Archives and Documents Studies carry out a great work on revealing, returning, bringing to public and involving into scientific circulation a large bulk of archival documents which had been accumulated as a result of life and activities of the prominent Ukrainian scientist Ivan Ogienko. The Institute has published the Index of these documents. We are drawing readers' attention also to the work «Ogienko's readings» which was brought into the world in the first issue of scientific round tables proceedings of 1991-1996. This is «Bibliography of works by metropolitan Ilarion (Ogienko) of 1907-1970» compiled by the teacher of Lviv Theological Seminary Ivan Ogienko prize winner Z. Timennyk, which includes 1014 items.

Lubov Pynda. Galychyna Economic and Cooperative Serial Editions (1900-1939)

The major book file of Galychyna Ukrainian economic and cooperative editions of the first four decades of the XXth. century consists of serial editions of educational, economic, cooperative societies, single persons. These are «Economic Library» (1908-1914) by the society of «Enlightenment»; «Economic Library» (1905-1912) by Pankivsky; «The Library of Agricultural Manager»; «Edition of the territorial butter-making union «Maslosoius» (1908-1939) by «Maslosoius», «Cooperative Library» (1923-1938) by Inspection Union of the Ukrainian Cooperatives (IUUC) and «The Library of Inspection Union of the Ukrainian Cooperatives» (1926-1939) by IUUC. The intention of publishing those six serials was caused by the Ukrainian economic and cooperative literature in the territory and the demand to raise the economic culture level of the rural locality by means of the printed word. As well as economic and cooperative news paper the corresponding serial editions were charged with the task of meeting such demand of Galychyna farmers and employees of cooperatives.

Yanna Chepurenko. The Law of Depository Copy and National Bibliography: experience of work

The Law of Depository Copy is a real

base of functioning the system of the national bibliography (NB). The development and functioning of the NB in the country depends on the condition of legislative security of the system of depository copy (DP). Due to it the first step to the creation or improvement of already existing NB system is the development and passing the Law of DP. Clear definition of the depositories of DP in legislation and their role in the NB system, types composition of the deposited documents will ensure the completeness of representation of the national informational flows in bibliographical indexes.

To determine the role of the libraries unions in the functioning the system «the Law of DP - the national bibliography» the author turns to the experience of the international libraries unions in this question. The leading part in this question belongs to such competent organization as International Federation of Library Associations (IFLA).

Iryna Sergeieva. S.A. An-s'ky and «The Album of the Jewish Artistic Relics of the Past»

The article touches upon the ethnographic and folkloristic activities of the Jewish writer, ethnographer and prominent public figure S. An-s'ky. It analyses his work «The Album of the Jewish artistic relics of the past». The author of the article had found the second copy of the first volume in the Institute of Manuscript of NLUV.

Fedir Pogrebennyk. Book Illustrations by Bogdan Lepky

Thousands of new readers are just discovering the name of Bogdan Lepky, who was not only a talented Ukrainian writer, but also a historian of literature, literary critic, translator. Though these sides of his creative work are known more or less, only few persons know about his artistic talent.

The publication touches upon the very side of the creative personality of the artist, produces works illustrated by him.

Galyna Kovalchuk. Publishing Activity of the Ukrainian Scientific Institute for Bibliology (USIB)

Ukrainian Scientific Institute for Bibliology (USIB) started its activities 75 years ago in October, 1922. Being the first and leading scientific institution in the field

of book science in that time USIB initiated the development of theoretical and practical foundation of the native bibliology. One may positively speak of the existence of Ukrainian bibliology school in the 20-ies.

Exhibitions, lectures, training the bibliological staff, international links, questionnaire sociological investigation of libraries, edition of the only in the state scientific bibliological journal «Bibliological News», creation of the archive of the Ukrainian publications of the first postrevolution years and the bibliological literature collection of great value, compiling the bibliographic indexes - this is not complete list of scientific and practical interests of USIB. But the scientific and publishing activities were the main ones in the work of the Institute.

Taisiia Kivshar. Education Worker Stepan Siropolko

Among Ukrainian culturologists, pedagogues, political, public figures, culture and education workers, the person of Stepan Siropolko (1872-1959) is distinguished, whose course of life and creative work is an evidence of a selfless labour for the sake of Ukrainian people, in the field of out-of-school education in particular.

The scientist regards the education development in historical evolution and in connection with the general state of the society and wider European process, with ideological perception and psychological peculiarities of a concrete person as a creative worker and culture recipient.
