Uskov Igor Valer'evich, candidate of economic sciences. National academy of nature protection and resort building. **Models of the budgetary mode are in the system of local finances.** Features and principles of functioning of models of both budgetary and budgetary federalism are analysed in the conditions of unitary device of country. It is suggested in the conditions of transformation of economy of Ukraine to use both principles of budgetary unitarizm and principles of budgetary federalism with the purpose of providing of financial independence of local authorities, strengthening of processes of budgetary decentralization at local level.

Keywords: budgetary federalism, local authorities, financial resources, budgetary decentralization, local finances.
