

CONTENTS

THEORY AND METHODS OF SIGNAL PROCESSING

Prokopenko I. G., Prokopenko K. I., Churina A. J.

Robust algorithms of objects movement detection in the viewing field of the lighting control system.....9

Vasyliiev A. V., Vasylyev V. V., Simak L. A.

Approximation of solutions of fractional differential equations of variable order with using the *S*-transform.....14

Skripets A. V., Romanenko V. G., Levit J. R., Levkovsky V. V.

The experimental research on sugar content in liquids influence on pressure oscillation.....24

Petrova J. V.

Dynamic characteristics of operator`s “visual channel” with using cathode-ray tube monitor.....30

Ivanov V. A., Zadorozhniy A. S.

The distortion of radio signals spectra by parametric system “basic antenna – fuselage of helicopter”.....35

Onikienko Y. Y., Vasylichuk I. A., Nahorna Y. V., Pryimak L. V.

Application of hilbert-huang transform in cerebral blood flow regulation.....41

Pjanikh B. E.

Technical and economic comparison of direct converters parameters of electric energy.....46

Lyubimov A. D., Knuryev A. H.

The process of self-organization in time lighting formation in thundercloud medium.....53

AUTOMATIC CONTROL SYSTEMS

Chikovani V. V.

Secondary wave control system of the coriolis vibratory gyroscope resonator58

Sergeyev I. Ju.

Linearization of transfer characteristic of intelligent capacitance sensor.....62

Sineglazov V. M., Kozyrskyy V. V., Trehub M. I.

Justification of aerodynamic efficiency increase methods in gearless horizontal-axis wind turbines.....67

Ablesimov A. K., Polezhay K. A.

Limit cycles in nonlinear systems of stabilization.....75

COMPUTER-AIDED DESIGN SYSTEMS

Sineglazov V. M., Titarchuk A. A.

The concept of creating of computer-aided design of process equipment.....80

Filiashkin M. K., Novik M.

Combined complementary filter for inertial navigation system.....84

Melnyk O. S., Todavchych S. V.

Synthesis of programmable nanoelectronic devices.....89

Pylypenko I. O.

Change of the effectiveness of project management approaches at different levels of uncertainty.....95

MATHEMATICAL MODELING OF PROCESSES AND SYSTEMS

Fryz M. Ye., Stadnyk M. A.

Justification of the mathematical model of steady-state visual evoked potentials as a linear random process.....100

Vishnevsky A. V.

The neural scheme of an electronic composer.....107

Kamyshyn V. V.

Multistep procedure of statistically concerted group preferences system implementation.....111

Gabrussenko Ye. I., Zadorozhny R. O., Stashenko I. O., Bilous N. M.

Determine the distance stable connection for unmanned aerial vehicle under the influence of city conditions.....122

Gabrussenko Ye. I., Zadorozhny R. O., Lesnik A. V.

Determination of unmanned aerial vehicle stable connection distance under the influence of woodland.....126

Zinkovskiy Yu. F., Sydoruk Yu. K., Turovskiy A. O.

Analysis of arbitrary propagation of electromagnetic waves through the polarization-selective surface.....130

Borsuk S. P.

Simulator as a teaching system.....136

Kemenyash Y. M., Yatskiivskiy V. S.

Damping of liquid oscillations in a right circular cylinder with radial ribs.....142

Yurchenko A. S., Tupitsyn M. F., Stepanenko I. A.

Minimization of the mean access time to the hierarchical memory system.....146

Fedorov D. M.

The improvement of ASM-algorithm for automatic placement of the face control points.....150
