

CONTENT

CONTEMPORARY ASPECTS OF NEUROPHARMACOLOGY

- Belenichev I. F., Egorov A. A.* Compounds of L-lysine in pharmacocorrection of disorders of energy metabolism of the brain in the modeling of hemorrhagic stroke3
- Semenenko A. I.* The dynamics of neuron specific enolase activity and protein S 100 level in the rats under of acute disorder of the cerebral circulation and course intravenous injection of 0,9 % solution NaCl.....9

IN SCIENTIFIC LABORATORIES

- Buhtiyarova I. P.* Pharmacological study of hypolipidemic effects of raleukin on the model of streptozocine diabetes mellitus in rats 14
- Zelenskiy D. S., Bondar V. M., Zhukovsky O. I., Polyakov V. I., Soloviev A. I.* Effects of taurocholic acid diisopropyl phosphate oligoethyleneglycol on contractive force and calcium transients in rat thoracic aorta smooth muscle 19
- Monchak I. L., Polyakov V. I., Zhukovsky O. I., Bondar V. N., Soloviev A. I.* The effect of taurocholic acid diisopropylphosphate-oligoethyleneglycol on rat portal vein contractile activity at hypoxia *in vitro*.....25
- Nahornaya A. A., Stezhka V. A.* Irbesartan influence on free radical lipid peroxidation in rats with hereditary stress-induced arterial hypertension32
- Stepanova K. O.* Study of the medicinal properties pessaries «Klimedeks» on the model of experimental vaginitis 39
- Shayakhmetova G. M.* Ethambutol action on structure and functional indices of gonads and male rats fertility 45
- Shebaldova K. O., Kravets D. S., Lukyanchuk V. D., Seifullina I. I., Martsinko E. E.* Comparative pharmacokinetics VITAGERM-3 in the normas and in the conditions of acute hypercapnic hypoxia..... 51
- Yakovleva L., Egorova E., Koshevaya E.* Experimental verification of testicular hypofunction correction by Elgacin in rats..... 56
- Kizub I. V., Klymenko K. I., Soloviev A. I.* Endothelium-dependent sustained hypoxic pulmonary vasoconstriction can be mediated by signaling via myoendothelial gap junctions 64

LAST DEVELOPMENTS

- Acad. A. V. Stefanov* X National School for Young Scientists – Pharmacologists 70
- Belenichev I. F.* The role of heat shock proteins in the implementation of molecular and biochemical mechanisms of neuroprotection..... 72
- Golovenko N. Ya.* Contours of the future of pharmacology..... 81
- Gubskiy Yu. I.* The problem of pain in palliative medicine: social challenge and molecular pharmacology..... 85
- Mamchur V. I.* Two drugs, one body – the mechanisms of interactions at comorbid pathology 91
- Reznikov A.* Testing methodology for antitumor activity of pharmacological agents using nephro subcapsular xenografts in mice 96
- Soloviev A. I.* Ion channels as pharmacological targets. Time to change the paradigm of classical pharmacology 101
