

CONTENT

REVIEWS

- Vazhnichaya Ye. M., Bobrova N. A., Hancho O. V., Loban G. A.* Silver nanoparticles: antibacterial and antifungal properties..... 3
- Kizub I. V., Klymenko K. I., Soloviev A. I.* Protein kinase C participation in mechanisms of vascular tone abnormality in diabetes mellitus. Part 2 12
- Petrusha Y. Y., Omelyanchik L. A.* Synthesis and biological activity of 1,2,3,4-tetrahydroacridine derivatives..... 18

CONTEMPORARY ASPECTS OF NEUROPHARMACOLOGY

- Gonchar- Cherdakli L., Osadchuk K., Vorozhbyt A.* Studies of hemispheric dominant influence of anticonvulsants on the electrophysiological parameters of brain functioning 25
- Tsyvunin V. V., Shtrygol' S. Yu., Zaginaychenko B. A.* The investigation of psychotropic properties of the potential herbal anticonvulsants 30

IN SCIENTIFIC LABORATORIES

- Lukjanchuk V. D., Polishchuk Y. M., Seifullina I. J., Rysukhina N. V., Martsynko O. E., Chebanenko O. A.* Comparative study of pharmacological activity of the coordination compounds bis(citrate)germanates and stannates on the model of closed cranio-cerebral injury 36
- Mokliak Ye. V., Vlasenko N. A., Vazhnichaya Ye. M.* Erythropoietin content in correction by 3-hydroxypyridine derivative the acute stress with various degree of erythron system damage 44
- Sapegin V. I.* L-lysine escinate influence on local blood circulation in the intestinal wall under intraabdominal hypertension modeling 49
- Semenchenko O. M., Tsurkan A. A., Korableva O. A., Burmaka A. V.* The experimental study of anti-ulcer activity of herbs of some of the genus *Salvia* at the experimental alcohol-prednisolone model of gastric ulcer in rats 55
- Tozyuk E. Yu., Stepanyuk G. I.* Comparative evaluation of sodium 2-(tetrazol[1,5-c]quinazolin-5-ylthio)-acetate and bemityl effects on the recovery process of physical working capacity of rats 59
- Yarosh A. K., Nagornaya H. A., Kucherenko L. I., Bidnenko O. S.* The pharmacokinetic parameters of the «Angiolin» tablets in rats blood after oral administration 64
- Shayakhmetova G. M.* Testicular damage in rats after co-administration of anti-tuberculosis drugs in different combinations..... 70

CLINICAL PHARMACOLOGY

- Drogovoz S. M., Lukyanchuk V. D., Sheiman B. S., Toryanik E. L., Kononenko A. V.* The risk of overdose of antihypertensive drugs 77
- Sheremeta L. M.* Hepatotoxicity of drugs in their clinical application 84

BIOETHICS

- Dobrelia N. V., Strielkov I. V., Buchtiyarova T. A.* European legislations development on the use of animals in scientific experiments 88
