REVIEWS

- Kizub I. V.* Rho-kinase: one of the main links in Ca²⁺ sensitization in diabetes-induced vascular smooth muscle hypercontractility..... 3
- Slesarchuk V. Yu.* The neuroprotective properties of Quercetin containing preparations 11
- Sharykina N. I., Meshkova N. A., Mischenko O. V., Khavich O. A., Kudryavtzeva I. G., Pendeluk S. I.* Transduction of mitogenic signals as a basis for the creation of anticancer targeted agents (part II) 19

CONTEMPORARY ASPECTS OF NEUROPHARMACOLOGY

- Kotov O. O., Gromov L. O., Yarosh O. K.* Development of resistance (tolerance) to anxiolytic action of phenazepam in prolonged administration to mice 27
- Makarenko O. V., Kryvoruchko T. N.* Experimental evaluation of antiparkinsonian activity of Citicoline combined with Amantadine..... 32
- Nefedov O. O.* Comparative evaluation of the impact of non-narcotic analgesics and adjuvant drugs on the behavioural responses of rats under the experimental equivalent of multiple sclerosis..... 37

IN SCIENTIFIC LABORATORIES

- Dobrelia N. V., Strelkov E. V., Khromov A. S., Klimenko K. I., Novokhatskaya T. V., Soloviev A. I.* Role of protein kinase C delta-isoform in the development of coronary blood flow disturbances due to diabetes mellitus 44
- Mokliak Ye. V., Vazhnichaya Ye. M., Andrusishina I. N.* Composite magnetite nanoparticles influence on iron content in the organs and blood plasma of rats under the conditions of acute blood loss..... 51
- Mokhort M. A., Kutovyii I. M.* Impact of imidazo[1,2-a]azepinium derivatives on isolated rat heart contractile activity 59
- Posokhova K. A., Stechyshyn I. P.* The effectiveness of quercetin-containing preparations at the experimental diabetes mellitus 66
- Chikitkina O. M., Kononenko N. N., Laryanovskaya Y. B.* The influence of glikverin on lipid metabolism and the condition of rat liver under metabolic syndrome..... 72
- Shchudrova T. S., Zamorskii I. I.* Comparative assessment of the nephroprotective activity of organospecific peptides in rats with gentamicin nephropathy 81
- Yarosh A. K., Nagornaya H. A., Kutsherenko L. I., Volui A. V., Kuznietsova H. V.* Cardiotropism of a new injectable form of the drug «Angiolin» after intramuscular administration 87
- PERSONALITY** 93
