REVIEWS

Dronova M., Vrynchanu N., Dudikova D. New quinolone antibiotics: clinical perspectives.....3

CONTEMPORARY ASPECTS OF NEUROPHARMACOLOGY

Belenichev I. F., Lytvynenko E. S. Enzymatic and non enzymatic links of thiol-disulfide link system in the brain of experimental animals with cerebral ischemia: effects of selenaze..... 13

Gromov L. O., Gonchar-Cherdakli L. G., Vorozhbit A. P., Tarnavska L. S., Pishel V. J., Yarosh A. K. Experimental investigation of hemispheric asymetry of amitriptyline antidepressant effects 19

Deiko R. D., Shtrygol' S. Yu., Kolobov A. A., Mishchenko O. Ya. The correction of neurological and cognitive disorders on the model of cerebral ischemia using original neuroactive oligopeptides..... 24

IN SCIENTIFIC LABORATORIES

Drogovos S. M., Dmytrenko S. V., Shtrobyla A. L., Vashkeba-Bitler E. M. Chronopharmacological features of voltaren's action..... 30

Zagayko A. L., Briukhanova T. A., Kochubey Y. I., Musmari M. A., Kovalenko S. N. Experimental research of JNK new inhibitors' pharmacological activity 37

Kalco E. A., Drogovoz S. M., Ivantsik L. B. Influence of circadian and seasonal biorhythms on the cytolitic enzymes activity in intact rats 43

Klevanova V. S., Trzhetsynskyy S. D. Gernova G. O. Antidiabetic properties of blood burnet (*Poterium sanguisorba L.*) under dexamethasone diabetes 48

Lukyanchuk V. D., Seifullina I. I., Shebaldova K. O., Martsinko O. E. Actoprotective activity of the new antihypoxant VITAGERM-3 after hypoxia of an enclosed space..... 53

Mosiyenko V. S., Kushchevskaya N. F., Burlaka A. P., Shlyakhovenko V. A., Lukin S. M., Kurtseitov L. K., Karnausenko O. V., Verbynenko A. V. Investigation of anticancer properties of ferromagnetic iron oxide nanoparticles and their composites on transplantable tumors in mice..... 59

Nizhenkovskaya I. V., Narokha V. P., Kuznetsova O. V., Bryzgina T. S., Seifullina I. I., Martsinko E. E., Chebanenko E. A. Effects of nicotinic acid and complex of germanium with nicotinic acid (MIGU-1) on lipid fatty acid composition of cardiomyocytes and hepatocytes in rats with experimental chronic heart failure..... 68

Rybak V. A., Maloshtan L. M., Poltorak V. V., Krasova N. S. The study of antioxidant properties of the thick beans extract on the model of type 2 diabetes against the background of obesity in rats 76

WORKING OUT OF THE NEW METHODOLOGICAL WAYS

Gudzenko A. V. Development of HPLC method for determination of isorhamnetin-3-rutinoside in multicomponent herbal remedies of *Calendula officinalis L.* flowers..... 82

CLINICAL PHARMACOLOGY

Greben' N. Effectiveness of treatment and rehabilitation of patients with chorioretinal burns of eyes..... 88
