**Semenyuk, N.**

**Problems of prognostication of development of continuous education**

*Prognostication of development of continuous education is examined. This problem has not only theoretical but also technologically-applied nature taking into account the necessity of foresight of requirements of labour-market in relation to*

*descriptions of future social capital. Therefore it is extraordinarily important already today to orientate the Ukrainian legislation in the area of creation necessary normatively-legal, organizationally-bureaucratic and to the*

*climate for rich in content and formal diversification of the national system of education during*

**Keywords:** *man, education, continuous education, educational politics, prognostication.*
