

Volodymyr Morozov. Technologies of education in European space

Pedagogics – it is and science, and original art, as not only studies essence of processes of education and studies, their conformity to law, maintenance, forms, methods, but also kreativni methods of decision of pedagogical tasks, receptions of pedagogical trade and others like that. Taking into account it inherent specific functions of studies and education it. Among the basic functions of studies the special attention applies on educational, educate and developing functions. That studies provided realization of these functions, his purpose must necessarily foresee them simultaneous introduction. Last the turn based on principles of research of personality which studies. At the same time in pedagogics large attention is spared a method and pedagogical technologies of teaching of the article of research.

Keywords: *philosophy of education, technology of education, Bolonskiy process.*
