Viktor Dubinin. People as the contradiction: philosophical and synergistic aspect

In this article sources, mechanisms and tendencies of development of people as a special ethnic community are discussed. It is proved, that people is the contradiction, as it becomes the source of its development. Systemic elements of the categories as “harmony” and “contradictions” are considered in their structurally-functional and synergetic approach. The thesis is vindicated, that social contradictions – is a normal situation, which requires a quiet and constructive solution of contradictions.

Keywords: people, contradiction, harmony, oppositions, dialectics, synergy.
