The Ukrainian-Azerbaijani relations in a context of eurointegration aspirations of both states

Interstate relationship between Ukraine and Azerbaijan is built on the basis of strategic partnership and close interaction in different branches of economy. At the same time the special attention deserves the analysis of a foreign policy of these republics, directed on integration into the European structures, and consolidation of efforts of Kiev and Baku for achievement of goals. With confidence it is possible to

say that Ukraine and ARE (autonomous republic) surely move in the direction of EU, but thus improve interstate cooperation with the purpose to strengthen the strategic value in geopolitical space of Eurasia. Especially it concerns oil and oil-processing industry, and also use of the territory of Ukraine for transit of the Azerbaijani energy bearers. Besides, Kiev and Baku closely cooperate in a number of the international and regional organizations that gives the chance to coordinate political actions on the world scene.

Keywords: Azerbaijan, Ukraine, EU, Russia, eurointegration.
