Andrushchenko, .V., a doctor of political sciences, associate professor, manager of department of - problems of community development, National pedagogical University, is the name of . . Drahomanov (Ukraine, Kyiv), 05031985@ukr.net

Forming of tolerant civil consciousness in Ukraine: civilization measuring

Modern world overcrowded contradictions and conflicts; however him the cored basis are tolerance and peaceful nature, that appear as a humanistic alternative to the political conflicts; an author asserts that except tolerance, before Ukrainian society the question of confession of independence, noninteraction of individual remains

open, him the personal responsibility for the persuasions and acts, impermissibilities of the power imposing of any ideas; the political measuring of such tolerance is possible through democratic advancement and development of civil society, the source of that are sovereign people; the resources of the Ukrainian people to and creation of the state passed the test of protest numerous actions, disobedience, by revolutions; in these events Ukrainians showed the democratic, tolerant potential that can be reliable soil for a legitimate rule and defence of national interests of the state.

Keywords: man, citizen, culture, values, tolerance, education, humanism.
