CONCILIARISM IN CONTEMPORARY PHILOSOPHY

The sources of the doctrine about “sobornost” (conciliarity) can be found in Byzantium though Byzantine religious philosophers told about it, of course, in other way than Russian religious philosophers. Both the term conciliarity and the most popular in our times the understanding of conciliarity come from the Russian religious philosophy. The traditional for the Russian religious philosophy the doctrine about “sobornost”, first of all, tried to lighten those powers due to which human relations go beyond the utilitarian ones. The notion conciliarity expresses the idea of unity in variety; conciliarity is the basis of any human communication and unity. In the Ukrainian social and philosophical opinion the theme of conciliarity is connected with the idea of creating a national state and its unity within the Ukrainian ethnos.

The keywords: conciliarity, russian religious philosophy, ethnos.
