The Journal of Engineering Sciences is an open access scientific journal that covers urgent issues of the up-to-date high-tech production, development of new engineering trends and future technologies. General topics of the journal concerns manufacturing, mechanical and chemical engineering. The main publication language presented for papers is English. The editorial board represented by scientists from different European research institutions allows covering the journal's topics and qualitatively evaluate all the submitted papers. The system of double blinded reviewing process provides a high-quality presentation of papers. The editorial police including the submitting, reviewing, acceptance and publication of the materials are completely transparent.
